An Introductory Word from the Rector

Dear colleagues,

We have created this *International Student Guide* to assist all of you who have decided to spend some time at the University of Rijeka. It has been designed especially for students who intend to study at our University through an exchange programme, but it can also be of help to others, students or staff, coming to spend a certain period of time at the University.

We created this *Guide* to answer basic questions you might have regarding your prospective study at our University, as well as to help you cope with the formalities, accommodation, food and all the little things you should know to make your life and stay here more pleasant and easy-going.

Having chosen to come to our University, you have decided to become part of an emerging University. We think universities should be at the heart of the society. And yes, we believe that once you go back home, you will take a part of our heart to your society.

By adopting the Bologna process, European countries created the European Higher Education Area (EHEA), and the University of Rijeka has agreed to contribute to the creation of this "Europe of Knowledge". Accordingly, starting from 2005/2006 we have implemented the "Bologna principles" into all our study programmes. We are constantly improving the quality of teaching and academic life and work. Today, each member institution of the University of Rijeka has both experienced staff as well as a number of scientists educated at top centres institutions worldwide.

Among other things, the University of Rijeka – with great support from our partners – the County and the City of Rijeka – is transforming the ex-military area on Trsat into a University campus. The Campus is set to host a number of the University's institutions, namely, the University hospital, students' centres and dormitories, as well as cultural and sports facilities for students. The Academy of Applied Arts was the first institution that moved into the new location on the Campus in 2006 followed by the Faculty of Humanities and Social Sciences as well as the Faculty of Teacher Education in 2010.

The University of Rijeka is proud to present itself as an open University - i.e. open to foreign students, teaching staff, researchers, as well as to contemporary trends in higher education. We participate in bilateral and multilateral higher education projects and programmes like Erasmus, Tempus, Framework 7, INTERREG, Jean Monnet, CEEPUS and others.

The University of Rijeka actively contributes to the development of Croatian society as a whole. It actively contributes to the overall integration of both the city and region in which it works, especially by fostering a spirit of enthusiasm and unity.

We work to create a student-friendly University and make students our partners. This is why we have invested so much in the improvement of students' living standards. We think standards should not be regarded only in terms of accommodation and food, but also in terms of quality of study, research work, and the University's relationship with society in general.

We are happy to have you here, dear student. Join us in making our University cosmopolitan.

The Rector of the University of Rijeka, the entire teaching and administrative staff, as well as your future colleagues – students, welcome you to our University.

Professor Pero Lucin, M.D., Ph.D.
Rector of the University of Rijeka

1 Croatia – Facts and Figures

1.1 About the Country

Croatia is a country with a thousand-year-old history. It covers an area of 56.542 sq. km. The coastline, including the islands, is 5.835 km long. There are 1.185 islands, whereas a mere 47 are inhabited. According to the 2001 census, Croatia has a population of 4.44 million. The capital is Zagreb, a city teeming with Central European charm.

/photo: Dubrovnik/

Croatia lies at the meeting-point of the Mediterranean, the Alps and the Pannonian plains. These various features have merged into a unique and charming harmony of opposites. Although Croatia's main attraction is the coast and its islands, the beauty of its inland might surprise you. Gorski kotar is a mountain region where nature lovers, mountaineers, hikers, winter-sports fans and hunters can enjoy the untouched beauty of nature. Then there is Lika,

the region separated from the sea by the huge mountain of Velebit. Baroque castles and thermal spas can be found in Hrvatsko zagorje, the region of Podravina, and the fertile plains of Slavonija.

In addition to its variety and natural beauty, Croatia is also renowned for its unpolluted environment. Today some 8% of Croatian territory is listed as environmentally protected in view of national parks. It is a remarkably valuable and environmentally preserved asset in the very heart of Europe. Of the eight national parks, half are in the mountains (Risnjak, Paklenica, Plitvice Lakes and Sjeverni Velebit), and half are on the coast (Kornati, Mljet, Brijuni and Krka). Of the latter four, all but Krka are on islands.

/photo: Plitvice Lakes/

Many monuments form part of the world's cultural and historical heritage in Croatia. Most notable are the "monument" cities of Dubrovnik (representing a part of the world cultural heritage under UNESCO protection), Split, Pula, Porec, Trogir, Hvar and Šibenik.

The Austrian and Hungarian royal families, and many other European kings and emperors, heirs, and dukes came here in winter to enjoy the mild climate and beautiful landscape. Croatia has attracted many famous people throughout history such as the famous dancer Isadora Duncan who was enchanted by the beauties of Opatija, Lord Byron who fell in love with a beautiful blonde from the North, and Agatha Christie who spent her second honeymoon in Dubrovnik and Split.

Some world famous writers spoke about the country's beauty in their works. Writers such as George Bernard Shaw, Carlo Goldoni, Jack London, and Eugene Ionesco all wrote about Croatia. Not many people are aware of the fact that Shakespeare's Twelfth Night takes place here, Jules Verne's Voyage au centre de la Terre began in Pazin (Istria), and that James Joyce lived in Pula for a while.

Croatia has been announced as Lonely Planet Staffers' number one destination for 2005, while National Geographic Adventure announced Croatia as number one "Hot Adventure Destination" in 2006.

Croatia's claim to fame:

- The tie
- The ball-pen and fountain pen (Slavoljub Penkala)
- The torpedo (Ivan Luppis)
- Alternating current (Nikola Tesla)
- Fingerprint identification (Ivan Vucetic)
- Marco Polo
- The founder of San Marino (Marin from the island of Rab)
- The parachute (Faust Vrancic)

2 University Locations

2.1 Rijeka – the City

www.rijeka.hr

Rijeka, with its 200,000 inhabitants, is the third largest city and the largest Croatian port. Rijeka is situated on the Kvarner Bay, in the northernmost part of the Adriatic Sea, where the Mediterranean penetrates deepest into the European mainland coming closest to the countries of Central Europe. The town is not far from the Italian and Slovenian borders and is surrounded by mountains and numerous picturesque coastal towns.

Rijeka has a pleasant Mediterranean climate with exceptionally warm summers and relatively mild winters. Temperatures range between 6°C (in January) and 37°C (in July). The average temperature in July is 23°C and the average for the coldest month, January, is 5.2°C. The most common winter lows do not venture under 3°C below zero. High summer air temperatures affect the sea temperature, which can reach 25°C, giving an annual average of 16°C.

The mountains surrounding the Kvarner, from Ucka, over the hills of Gorski kotar, to Velebit, create an impressive natural setting, which is especially beautiful when approaching Rijeka from sea. Occasionally during the year and especially in winter, cold bouts of the bura wind blow from the mountains, causing sudden drops in temperature and clearing the air above Rijeka.

In addition to the bura, which brings cold and clear weather, the jugo wind brings cloudy and rainy weather. In summer, a frequent wind is the north-westerly maestral, which brings a breath of cool air to hot summer days, extremely suitable for sailing.

The Rjecina, a karst river, plays an important role in the life of Rijeka, supplying the town and its surroundings with drinking water.

The immediate vicinity of the Gorski kotar highlands and coastal tourist centres offers Rijeka's inhabitants and visitors a unique opportunity to take part in various sporting and recreational activities.

The first known inhabitants of the area were the Illyrians and the Celts. A municipality known as Tarsatica was located here during the period of the Roman Empire. In the 7th century, the Croats settled in Tarsatica and the surrounding area. In later periods, until the end of World War II, Rijeka

was ruled in turn by the Hapsburgs, the Hungarian royal family, Croatian nobility, and Italy. Rijeka became part of Croatia in 1945.

Along with its role as an economic and transport focal point, Rijeka retains its importance as a cultural and educational centre. Numerous cultural events take place in Rijeka, such as theatre performances, concerts, exhibitions, the traditional international Rijeka carnival, fairs, and sporting events. Rijeka is also known for its cultural monuments, which reflect the styles and events of past centuries: the remnants of ancient Tarsatica, the Roman Arch called the Gate, which is the oldest historical monument in Rijeka, the City Tower, the Church of St. Sebastian, the Church of 'the Assumption, the Palace of the Old Town Hall and St. Vitus' Church. It is also known for the Maritime and Historic Museum of the Croatian Coast (formerly the Governor's Palace), the Croatian National Theatre, the University Library with the Modern Art Gallery, Trsat Castle, and a number of buildings that originate mainly from the 19th century.

Phenomena

- The first torpedo in the world was made in Rijeka
- Fiorello la Guardia, New York's most famous mayor, worked in the American consulate in Rijeka
- Rijeka is the town with the highest number of baroque marble altars on the eastern part of the Adriatic coast
- The first steam engine in south-eastern Europe was produced in Rijeka
- The first museum in Croatia was founded in Trsat in 1843
- The first photo of a gunshot was taken here
- The only lifebelt in the world from the Titanic can be found here

2.2 Opatija

www.opatija.hr

The name of Opatija is derived from the Benedictine Abbey (opatija in Croatian) built on the seashore between 1400 and 1440. The oldest known records of Opatija originate from the mid-15th century and include documents written by fra Giacomo (1449) and a Bull of Pope Nicholas V (1453). The area around the abbey was settled by fishermen and farmers, and by the mid-19th century the population of Opatija was about 250.

A historic watershed in the development of the town occurred in 1844 when a prominent Rijeka citizen, Iginio Scarpa, built a summer residence alongside the 16th century Church of St. James; he called it Villa Angiolina, after his wife. Thanks to the hospitality of the Scarpas, Villa Angiolina became the centre of the social life of Istria, and Opatija became a place to visit. Thus, 1844 is considered the start of tourism in Opatija. The visits of Ban Josip Jelacic in 1854 and Empress Maria Ana, the consort of Emperor Ferdinand I, in 1860, contributed to Opatija's growing fame outside Istria.

Word of the lovely little town on the Adriatic coast spread throughout Europe, and on March 4, 1889, Opatija received the official designation of health resort, which greatly encouraged its development. Popularly called the Pearl of the Austrian Riviera, Opatija became an important tourist destination for Austrian and European celebrities. In 1920, the Treaty of Rapallo awarded Opatija to the Kingdom of Italy, which slowed down its development. After World War II, tourism revived and today Opatija is one of the best-known and most prestigious centres of tourism in Croatia and a favoured location for conferences and meetings.

With the opening of the "Thalassotherapie", Ambassador, Adriatic and Admiral Hotels, as well as the Ici Marina, Opatija became particularly important as a health resort and tourist destination.

3 Useful Information

3.1 General

3.1.1 Post and Telecom Services

The phone code for Croatia is ++ 385, succeeded by the two-digit code of the town.

Post offices are open from 7 a.m. until 8 p.m. and on Saturdays until 1 p.m. There's a post office in Rijeka (Pošta 2) open 24 hours a day, at Kresimirova Street 7, near the train station.

Stamps are sold in post offices and at newsstands.

Prepaid phone cards of 15, 30, 50, 100 HRK can be purchased in post offices and at newsstands. Public phones can be found in post offices and important public places – bus and train stations, squares, etc. Check for call prices on <http://www.t-com.hr/english/residential>.

If you do not have a roaming option on your mobile phone we strongly suggest you arrange it before departure with your local mobile phone carrier. When you arrive in Croatia, one of the three networks will automatically appear on your display (VIP, T-Mobile or TELE2). For information on the prices, please consult your carrier before departure.

You may also purchase one of the prepaid start packages. For additional information visit:

- T-Mobile <http://www.t-mobile.hr/eng/2/20-00-00-00-00.asp>
- VIP <http://www.vipnet.hr/cw/show?idc=9233783>
- TELE2 <http://www.tele2.hr/>

When you are making local calls from a mobile phone to a landline, you have to dial 051 (city code for Rijeka) and then enter the phone number.

3.1.2 Internet Cafés

Internet café Peek & Poke
Ivana Grohovca 2
Tel: 680 770
www.peakpoke.hr

INTERNET KORNER
Riva 6
Tel: 311 045
E-mail: dandy@ri.t-com.hr

Internet café - Multimedijalni centar
Školjic 5d - 6
Tel: 327 185
E-mail: ctk.rijeka@ri.t-com.hr
www.ctk-rijeka.hr

Internet corner "Computer center"
Riva Boduli 7a
Tel/fax: 312 090
Gsm: 091/250 6214
e-mail: express-info1@ri.t-com.hr
web: www.computer-centar.com

Internet club Cont
Hotel: Kontinental
Šetalište A.K. Miošica
www.interclub-cont.com
Tel: 372 008
Opening hours: 07 – 22 h

Blue net
Trgovacki centar "Andrea"
Franje Candeka b.b.
Telefon: 671 603
Opening Hours 8:00 – 20:00
Sunday – closed

3.1.3 Chemists/Pharmacies

Chemists/Pharmacies stay open during usual shopping hours, from 8 a.m. until 8 p.m. The pharmacy "Centar" is open 24 hours a day; it is located in the city centre at Riva 18, which is near the beginning of the Korzo Street.

3.1.4 Banks

Banks are open on weekdays from 8 a.m. to 7:30 p.m., and on Saturdays till 1 p.m.

3.1.5 Shops

Common working hours are weekdays from 8 a.m. to 8 p.m. and on Saturdays until noon, occasionally on Sundays, until noon as well. Local food shops are open Monday to Saturday from 6 a.m. to 7:30 p.m., a few are open on Sundays, too. There are many supermarkets, which are somewhat cheaper than local shops. They are open from 7 a.m. till 9 p.m. and Sundays till 1 p.m.

3.1.6 Currency – Exchange Rates

The currency in the Republic of Croatia is Kuna (HRK, kn), which is divided into 100 lipa (lp). Notes and coins currently in circulation are as follows:

- Bank notes: 1000 kn, 500 kn, 200 kn, 100 kn, 50 kn, 20 kn, 10 kn
- Coins: 25 kn (rare), 5 kn, 2 kn, 1 kn, 50 lp, 20 lp, 10 lp, 5 lp, 1 lp

Foreign currencies can be exchanged at banks, exchange offices, post offices and at most tourist agencies, hotels, camps and marinas.

Exchange rates are as follows (rates applicable on March 27, 2012 and given as an indication only):

- EUR 1 7.52 Kn
- USD 1 5.69 Kn
- GBP 1 9.01 Kn
- CHF 1 6.24 Kn

Additional information can be found at <http://www.hnb.hr/tecajn/etecajn.htm>.

All major credit cards – Visa, American Express, Diners Club and Eurocard/Mastercard are accepted almost everywhere. The debit card Maestro is also widely used. Cash dispensing machines/ATMs are easily found in the area.

3.1.7 National Holidays

- January 1 – New Year's Day
- January 6 – The Epiphany
- Easter and Easter Monday – (variable, e.g. 2011 = 24, 25 April)
- May 1 – Labour Day
- Corpus Christi – (variable, e.g. 2011 = 23 June)
- June 22 – Anti-Fascism Day
- June 25 – Statehood Day
- August 5 – Victory and Homeland Gratitude Day
- August 15 – The Assumption
- October 8 – Independence Day
- November 1 – All Saints' Day
- December 25, 26 – Christmas Holiday

3.1.8 Useful Phone Numbers

Police Department	92 or 192
Fire Department	93 or 193
Emergency Medical Service (Ambulance)	94 or 194
Unique call number for all emergency assistance services	112
HT service numbers:	

Various notifications and information	981 or 18981
Information on subscriber numbers	11888
Hrvatske ceste (Travel Road Conditions)	213 260
HAK – Croatian Automobile Club	1987
Traffic wardens	0800 51 01
Meteorological Office	215 548
Red Cross	333 699
SOS phone	211 888

Sea Rescue Service	9155
Tourist Information Centre	335 882
University of Rijeka	406 500
Student Counselling Centre	315 225

3.1.9 Hospitals

There are three hospitals at three different locations in Rijeka, two general hospitals and a paediatric one. Opatija has a health-care centre.

*Main Hospital RIJEKA
Krešimirova 42
Tel: 658 111*

*Hospital SUŠAK
Tome Strižica 3
Tel: 407 111*

*Children's Hospital KANTRIDA
Istarska 43
Tel: 659 111*

*Health-Care Centre OPATIJA
Stubište Dr. Vande Ekl 1
Tel: 271 536*

3.1.10 Useful information

- Time zone CET (GMT+1)
- Electric current: 220 V, 50 Hz
- Tap water is drinkable
- No vaccination required
- Internet cafés can be found in all major towns.

3.2 Entertainment

www.tz-rijeka.hr/english/where_to_go.asp
www.kulturaplus.com

Rijeka is famous for its carnival, which is the third largest carnival in the world. If you are lucky enough to find yourselves in Rijeka during the carnival season (January - February), you may enjoy traditional folk festivities, carnival exhibitions, concerts or masquerade balls, as well as an international event where the International Carnival procession gathers over ten thousand participants and 150,000 visitors from Croatia and abroad.

Rijeka has several movie theatres, and if you are a movie fan, you can find the programme in the daily newspapers and at several points in the city centre. During the summer many concerts and other performances are held in the surrounding tourist centres.

3.2.1 Cinemas

3.3 Sports and Recreational Centres

<http://www.appleby.net/yellowpages/rijekaN-Z.html#Sport>

/photo: Kantrida swimming pools/

Sports fans can check out the football stadium and swimming pools complex in the western part of the city Kantrida as well as the “Mladost” sports hall located on Trsat (where basketball, handball, and volleyball are played).

The new Zamet Sports Centre is located in Rijeka's neighbourhood Zamet. It has various facilities: a sports hall with 2380 seats, local community offices, a library, 13 retail and service spaces and a garage with 250 parking spots.

The famous Grand Prix race (Velika nagrada Kvarnera), which is renowned worldwide, takes place annually near Rijeka, at Grobnicko polje (The Grobnik Field).

3.4 Local Transport

Local transport in Rijeka is organised by the city bus company Autotrolej. The company also provides services to many tourist places in Kvarner (to Opatija and Lovran to the north, and to Crikvenica and Selce to the south), so these towns can be easily reached. However, the city bus company does not provide services to the island of Krk, so you need to take the regular intercity bus-line, which is more expensive, and these buses could be very crowded on weekends and in summer.

There are several types of bus tickets:

- Monthly bus pass: price approx. € 15 for students and € 31 for non-students (city line prices)
- Round-trip ticket: price approx. € 2,1 (city line prices). These tickets may be obtained at newsstands.
- One way ticket (only available on the bus): price approx. € 1,3 (city line prices).

How to obtain a monthly bus pass?

- You should bring a photo (3 X 3,5 cm), a certificate of attendance from your faculty's administrative office and a completed and verified bus pass application which you can get at the web site www.autotrolej.hr or at the Autotrolej office on Jelacicev trg.
-
- If you have come to Rijeka as a visitor only, you too are entitled to a bus pass. It is a little bit more expensive than the students' pass, however the procedure is easier. Just go to the above-mentioned office and bring a document, a photo and the money and you can purchase your pass.

To find information on city and suburban bus service check out the following website: www.autotrolej.hr, click Vozni redovi, and then click Gradski prijevoz (inner-city lines) or Prigradski prijevoz (city outskirts).

TAXI stands:

<i>Opatija</i>	<i>711-366, 711-618</i>	

4 Travelling to the University of Rijeka and Settling In

4.1 Visa Application Requirements

A foreign citizen is required to get a visa before entering the Republic of Croatia, in accordance with the visa system prescribed by the Croatian government.

Visas are normally issued by the diplomatic mission or the consular office of the Republic of Croatia. A visa cannot be used as a work permit.

4.1.1 Procedure

Foreign citizens who are subject to visa requirement are obligated to apply for a visa prior to their entry into the Republic of Croatia, at the authorized Croatian diplomatic mission/consular post.

If there is no Croatian diplomatic mission or consular post in the applicant's country, an application for a visa may be submitted to the nearest Croatian diplomatic mission/consular post.

As a general rule, a foreign citizen shall submit a visa application personally. Exceptionally, a foreign citizen need not submit the application personally, but he/she shall present him/herself when called upon by the diplomatic mission/consular post.

A visa application for a foreign citizen minor or a foreign citizen deprived of his/her business capacity shall be submitted by his/her legal representative.

Foreign citizens shall enclose the following documents with the application:

- valid travel document (the period of validity of the travel document should exceed that of the visa's by three months);
- colour photo 35x45 mm;
- supporting documents that prove:
 - the purpose of the journey to the Republic of Croatia,
 - ensured accommodation,
 - means of subsistence to cover their stay in the Republic of Croatia and the return to their country of origin or to a third country have been provided,
 - means of transport and their intention to return to their country of origin or to a third country,
 - travel health insurance.

4.1.2 Visa information

All information related to visa requirements, fees, the list of countries whose citizens require visa for Croatia as well as the Visa application form can be found at the web page of the Ministry of Foreign Affairs and European Integration: <http://www.mfa.hr/MVP.asp?pcpid=1615>

Note: Information on this web site is liable to change, therefore additional information before travelling at the nearest Croatian diplomatic mission/consular office should be sought out.

4.2 Requirements for Temporary Stay

4.2.1 Address Registration

Hotels and Student Dormitory "Ivan Goran Kovacic" register their foreign guests with the Primorsko-Goranska County Police Administration. Foreign citizens staying at an apartment or at the Pupil/Student Dormitory Lovran should register their address or change of address in person at the

nearest Police Station of the Primorsko-Goranska County Police Administration within forty-eight hours upon arrival (weekends excluded).

Ministry of Interior

Primorsko-Goranska County Police Administration

www.mup.hr/1266.aspx

RIJEKA

Department for foreign citizens

Rijeka Police Station

Trg žrtava fašizma 3

HR-51000 Rijeka

Tel: (0)51 430 333

OPATIJA

Department for foreign citizens

Opatija Police Station

Poginulih hrvatskih branitelja 1

HR-51410 Opatija

Tel: (0)51 710 111, 710 039

There is a simple form to complete (Form 8A: Registration and cancellation of residence or registration of change of address), and the foreign citizen gets a receipt. If he/she changes the address or leaves the country during the period of 90 days and comes back again, he/she has to repeat the procedure.

Documents needed for the address registration:

- passport (original and a copy),
- form issued at the Primorsko-Goranska County Police Administration,
- a valid Croatian Identity Card of the landlord/landlady who legally owns the apartment (if a foreign citizen has already rented an apartment),
- four copies of the Tenancy contract and four copies of the Proprietor's certificate for the rented apartment (notarized by a notary public).

4.2.2 Short-term stay – stay of up to 90 days, with or without visa

Foreign citizens who are not obligated to possess a visa to enter the Republic of Croatia may stay in the Republic of Croatia for a maximum of 90 days within a period of 6 months, starting from the day of their first entry.

4.2.3 Temporary Stay Permit

The students (holders of a scholarship within the following programmes: Erasmus, Erasmus Mundus, CEEPUS, bilateral exchange) apply for the FIRST TEMPORARY STAY PERMIT in person at a local police administration or a police station in Croatia (check the Article 4.2.1 for the addresses).

The following documents should be enclosed with the application for the first temporary stay permit:

- the application for the issuance of his/her first temporary stay permit (Form 1a *1)
- 2 colour photographs, 35 x 45 mm;
- valid travel document (original and copy);
- official confirmation of residence (lease contract or statement of apartment/house owner authorized and verified residence by a notary public and proof of ownership of apartment or sales contract or contract of gift);
- official confirmation of insurance (original and copy of the health insurance policy);
- official confirmation of subsistence means (certificate of employment with amount of income or other proof of secured means for subsistence in the Republic of Croatia. Proof of secured means of support attached to the request must be in the name of the foreigner, immediate family member or joint household family member in the amount of 1,000.00 HRK – original and copy not older than 6 months);
- proof of the reasons for temporary stay (Erasmus students shall receive a written confirmation by the University of Rijeka proving their status of Erasmus exchange students);
- clearance certificate issued by the state of a foreign citizen's nationality, or by the state in which he/she has permanent residence, dated not more than 6 months prior to its issuance, translated to Croatian by an official court interpreter (only enclosed with the first temporary stay application) and

- official tax of 20.00 HRK if the application has been filed in the Republic of Croatia;
- the application for the issuance of an identity card for foreigners (Form 4a) (payment of the amount of 123.00 HRK to be made at the counter of the post office/bank).

The documents that are being enclosed with the application must be original documents or certified copies. Documents written in a foreign language must be filed together with the certified translation into the Croatian language and certified in line with specific provisions. The documents should be dated not more than 6 months prior to their delivery.

If the application has been positively decided, the foreign citizen concerned shall be issued a temporary stay permit in a form of a sticker in his/her travel document. The applicant should consult the Police Station where he/she applied for the temporary stay permit when the approval will be issued.

The approval for the first temporary stay, that is, the renewal of the temporary stay permit shall be valid for the period of up to 1 year. The application for the temporary stay permit renewal shall be submitted to a police administration or a police station not later than 30 days before the existing temporary stay permit expires. In case the foreign citizen concerned fails to apply for the temporary stay permit extension, he/she shall be charged a fine.

4.4 Health Insurance

All foreign students must have health insurance during their stay in Croatia. Students who have mandatory health insurance coverage from abroad during their temporary stay in the Republic of Croatia are entitled to medical emergency care. The modes of usage and the scope differ according to the country from where the person comes from respectively depending on whether the Republic of Croatia has made an agreement on social security with the person's country of residence or such agreement hasn't been made.

The best option is to enrol in an insurance healthcare plan in one's home country that covers one's stay in Croatia. Those students who are not covered by their home country healthcare plan should sign up for a Croatian healthcare insurance plan at the Croatian Institute for Health Insurance (Hrvatski zavod za zdravstveno osiguranje - HZZO).

HZZO
Slogin kula bb
51000 Rijeka
Tel: (0)51 355 311
Fax: (0)51 335 746
http://www.hzzo-net.hr/03_03_05_eng.php

4.4.1 Foreigners from Countries without the Signed International Agreement on Health Insurance with the Republic of Croatia

Persons coming from countries that haven't signed bilateral agreements on social security or if the healthcare isn't regulated by that agreement, during their temporary stay (up to 3 months) in the Republic of Croatia cover the costs of health care services by themselves, and the prices may differ from the prices applied for persons insured in Croatia.

4.4.2 Foreigners from Countries which have signed the International Agreement on Health Insurance with the Republic of Croatia

The insured persons have the right to use the emergency health care during their temporary stay in Croatia on the basis of the certificate of healthcare entitlement, issued by the foreign institute for health insurance i.e. in the way described in the relevant international agreement.

Foreigners intending to reside in Croatia temporarily are advised to contact the appropriate authorities (foreign health insurance) in their country, before coming to Croatia.

In order to easily access healthcare services, foreigners are advised to contact the Croatian Institute for Health Insurance upon their arrival to Rijeka, in order to replace the certificate attesting the foreigner's right to use the healthcare with a paper-based health insurance record card (Croatian: bolesnicki list).

On presentation of the patient's certificate a person may obtain healthcare services from any doctor or health institution who has contract with the Croatian Institute for Health Insurance within the scope established by bilateral agreement, but are required to pay additional amount if that is foreseen for Croatian insurers for such service.

4.4.3 List of Countries which have signed the International Agreement on Health Insurance with the Republic of Croatia

The list includes the following countries:

Austria, Germany, Bosnia and Herzegovina, the Czech Republic, France (Croatian citizens), Italy, Luxembourg, Macedonia, the Netherlands, Belgium, Romania, Slovenia, Serbia, Montenegro, Hungary, Poland, the United Kingdom of Great Britain, Slovakia, Switzerland.

4.4.4 Erasmus students

Erasmus students staying temporarily in Croatia are exempted from paying the fee for compulsory health insurance in Croatia. They may use international health insurance from their home country or choose to be insured at the health insurance company of their choice.

4.5 How to Arrive to Rijeka

4.5.1 By Train

www.hznet.hr

You can reach Rijeka from Zagreb, the capital of Croatia, in less than 3 hours. The quickest means of rail transport is the Inter City train from Zagreb to Rijeka twice a day. There are also direct trains daily to Rijeka from Ljubljana, Budapest, Munich and Vienna. It is very complicated to reach Rijeka by rail from the southern parts of Croatia.

Train station – Rijeka
Trg kralja Tomislava 1
51 000 Rijeka
Tel: (0)51 213 333
Info tel: 9830

4.5.2 By Air

The Rijeka Airport is situated on the island of Krk which is connected to the mainland by the Krk Bridge. The airport is about 27 km from Rijeka city centre. It takes approximately 45 minutes to reach the city of Rijeka by bus, which is provided by the Croatian national airline company, Croatia Airlines. Please check the website www.rijeka-airport.hr for information on available flights.

However, there are several airports that can be reached relatively easily from Rijeka. Zagreb Airport (175 km from Rijeka) offers flights to all major cities in Europe (Paris, London, Amsterdam, Zurich, Frankfurt, Brussels, Düsseldorf, Berlin, Prague, Vienna, Munich, Sarajevo, Skopje, and Mostar), as well as to many other cities (via Frankfurt). It is also possible to take a direct bus from/to Zagreb Airport to/from Rijeka every afternoon. It takes 2 hours to reach Rijeka by bus and the buses are generally comfortable.

Other airports close to Rijeka are: Brnik (Ljubljana, Slovenia) (138 km from Rijeka), Ronchi dei Legionari (Trieste, Italy) (112 km from Rijeka), Pula (97 km from Rijeka) and Marco Polo (Venice, Italy) (223 km from Rijeka).

autotrans@ri.tel.hr

4.5.4 How to get to Opatija

Once you are in Rijeka, it is fairly easy to reach Opatija. There is a local bus service (bus line 32) operating to Opatija from Rijeka's Jelacicev trg approximately every 20 minutes.

4.6 Accommodation and Living

4.6.1 University Student Dormitories - Housing Services for Students

The allocation process takes place in: July - for freshmen; and May - for other students

Student Dormitories "Ivan Goran Kovacic"
Franje Candeka 4
HR-51000 Rijeka
Tel, fax: ++385 (0)51 672 422

The dormitory consists of five buildings - capacity of 650 beds and 8 university guestrooms which are assigned according to the decision of the Ministry of Science and Technology.

Within existing facilities in Student Dormitories «Ivan Goran Kovacic» only few beds are reserved for Erasmus students, due to limited capacities. All rooms have free Internet access.

Life in Student Dormitories is organised on the basis of students' needs and requests, including very good standard of living, nutrition, cultural and sports events. The rooms are given to students on "first come first serve" basis.

4.6.2 Pupil/University Dormitory in Lovran

UCENICKI DOM LOVRAN
43.istarske divizije 3, 51415 Lovran, Croatia
Tel: ++385 (0)51 292 444, Fax: ++385 (0)51 291 663
ud-lovran@ri.t-com.hr

The Pupil/Student Dormitory Lovran is situated in a small town Lovran. By car it is only 10 minutes away from Opatija, 40 minutes away from Rijeka, and only 5 minutes away from Ika,, where the Faculty of Tourism and Hospitality Management is located.

The accommodation in Pupil/Student Dormitory Lovran amounts approx. €200 per month, including three meals per day (breakfast, lunch and dinner). The rooms have 2-6 beds. The Dormitory Lovran offers a library with over 5.000 books and computers.

4.6.3 Hotels and the Hostel

Hotel accommodation in the region is quite expensive (€50/day and more). The International Relations Office at the University of Rijeka can assist you with finding accommodation.

Grand Hotel Bonavia
Dolac 4
HR-51000 Rijeka
Tel: ++385 (0)51 357 100
Fax: 335 969

Fax: 216 458
www.jadran-hoteli.hr
jadran@jadran-hoteli.hr

Omladinski Hostel Rijeka
Šetalište XIII. divizije 23
Tel: ++385 (0)51 406 420
www.hfhs.hr
20% discount for Erasmus students

The Youth Hostel Rijeka, a beautiful 19th century villa, is located in a beautiful residential area (called Pecine) just overlooking the Adriatic Sea. It is only a 15-minute walk from the city centre, but the local bus

stops just in front of the Hostel. The capacity is limited (61 beds) and advanced booking is highly recommended. Erasmus students are entitled to a 20% discount of Hostel prices.

Facilities include reception (0-24h), restaurant, TV room, seminar room, Internet access, tourist info point, machines with cold and warm drinks.

4.6.4 Private Housing

Private housing (individual rental of the apartments) is quite popular in the region. Upon arrival to Rijeka, a visitor should visit the International Relations Office. You will get the list of agencies that offer accommodation in private apartments. Representatives of the University of Rijeka Student Council will assist you to find the appropriate accommodation.

Expected prices for accommodation are as follow:

- room (at a landlord's) - €150 – €200 per month
- flatlet - €250 – €400 per month

Prices vary according to the size of the apartment, provision of central heating facilities, the location, overall comfort, etc. Overhead expenses are sometimes included in the price, and sometimes are paid by

the consumer. Payment is expected at the beginning of the month, while some landlords request payment for several months in advance.

The easiest way to rent a room or a flat is to run an advert in a newspaper or in the classified ads e.g. Butiga, Burza (free of charge) and Novi list (paid).

The best time for apartment hunting is August and the beginning of September, as well as in between semesters (February). The end of September and October are the worst periods for the search because many students are searching at that time, thus prices are higher and it is more difficult to find good value for money.

4.6.5 Living expenses

Taking into consideration all the information given, monthly living expenses should be approximately €400 (€150 for accommodation plus overheads, €200 for food, €20 for public transport). However, much depends on one's own lifestyle and chosen accommodation. The following prices are merely a ballpark estimate intended for orientation:

Bread	8 kn	€1.06
Beer	15 kn	€2.0
Coffee	8 kn	€1.06
Coke	10 kn	€1.3
Hamburger	15 kn	€2.0
Pizza	35 kn	€4,66

4.6.6 Student identity card (X-card)

Erasmus students at the University of Rijeka are entitled to hold a **student identity card (X-card)** during their stay in Rijeka. It enables them to eat in students' cafeterias and restaurants at a reduced price. It proves a student status and may also be used to get a discount for some tickets and services.

Subsidized meals in student restaurants in Rijeka – where to use X card:

Restaurant "Kampus"	Vjekoslava Dukica bb
Restaurant Indeks	Krešimirova ul. 18
Restaurant Mini	Candekova ul. 4

www.uniri.hr

The modern university was founded on May 17, 1973, but the first school of higher education was established in 1627 by the Jesuits, and enjoyed equal status with academies in the largest cities of the Austrian Empire. The Faculty of Philosophy, established in 1726, operated for two years. The Theological Faculty was founded in 1728. From 1773 to 1780, Rijeka was the seat of the Royal Academy.

The University of Rijeka is presently comprised of nine faculties, one academy, four University departments, as well as a University Library and Student Centre which are situated in Rijeka, Opatija and Gospić (regional study programme of the Faculty of Teacher Education).

The total number of students at the University of Rijeka in the academic year 2011/12 was 18,270. Of these, 12,578 were full-time students and 5,692 part-time.

The University of Rijeka, pursuant to the Act on Scientific Activity and Higher Education, is managed by the University Senate, the University Council and the Rector of the University who coordinates the work of the members regarding the implementation of the Senate's decisions.

The University of Rijeka is a member of:

- Inter-University Centre of Post Graduate Studies in Dubrovnik,
- EUA - European University Association,
- Network of the Universities of the Adriatic and Ionian Basin,
- Alps Adria Rectors' Conference,
- CEI - Central European Initiative University Network.

And a participant in:

- LLP ERASMUS programme,
- Framework programme 7 (FP7), Jean Monnet, other EU programmes,
- CEEPUS (The Central European Exchange Programme for University Studies),
- Fulbright Programme.

5.2 International Relations Office

The University of Rijeka's collaboration with foreign universities, scientific and research institutions, international agencies and associations is a significant area of development. Moreover, it is considered as one of its fundamental objectives.

The University's openness towards both society and the world is a prerequisite for its further development. Openness and contacts with foreign institutions are considered as a tool for benchmarking progress and accepting the world top criteria in research and education.

The main focus is on participation in bilateral and multilateral research programmes, student mobility programmes, young researchers and university teachers exchange programmes as well as securing scholarships and grants for professional training.

The University strives to facilitate all existing forms of international cooperation as well as to create conditions for establishing new models of international collaboration

5.3 The Rijeka School of Croatian Studies

The Rijeka School of Croatian Studies operates as part of the Department of Croatian Studies at the University of Rijeka Faculty of Humanities and Social Sciences.

It offers courses of Croatian as a second or a foreign language. The courses offered differ in duration (the number of teaching hours), content, goals and intensity. Each course combines language instruction with teaching about Croatian culture and civilisation.

The Rijeka School of Croatian Studies promotes the Croatian language, literature and culture internationally, develops modern methods of teaching Croatian as a second or foreign language, promotes mobility and administers tests of Croatian as a second or a foreign language. Other goals include developing and creating standardised testing and teaching materials, organising academic and professional conferences, and setting up professional, translation and teaching projects that promote the Croatian language, literature and culture abroad. The School co-operates with other national and foreign institutions that share its goals, with instructors of Croatian at foreign universities and academic institutions and with scholars in Croatia and abroad, and establishes connections with Croatian emigrants.

5.5 The Academic Year and the Examinations

Winter semester:

Lectures begin:

- beginning of October – for freshmen
- a week later in October - for sophomores, juniors and seniors
- Lectures end:
- end of January

Summer semester:

Lectures begin:

- beginning of March

Lectures end:

- mid June

Examination Periods:

Winter examination period: February
 Summer examination period: from mid June to mid July
 Autumn examination period: September

5.6 Teaching System

For most study programmes, students can expect a more or less equal mix of theoretical lectures and practical work, often in the form of seminars held for restricted number of students.

Final assessment for most programmes takes place at the end of the semester/year by written and oral examinations for each of the courses attended. Usually, the final assessment is based on performance recorded during the semester.

5.7 The Grading system in Croatia

Grades range from 1 to 5, 1 being the lowest and 5 being the highest possible grade.

<i>Croatian Marks</i>	<i>Approximate Equivalent</i>
5	<i>excellent</i>
4	<i>very good</i>
3	<i>good</i>
2	<i>satisfactory</i>
1	<i>unsatisfactory</i>

In addition to traditional grading system, an ECTS compatible grading system (A to F) is also in place.

6 Member Institutions

6.1 Academy of Applied Arts

Slavka Krautzeka bb
 HR – 51 000 Rijeka
 T: ++385 (0) 51 228-880
 F: ++385 (0) 51 322-363

 www.apuri.hr

The Academy of Applied Arts at the University of Rijeka was founded by decision of the Senate of the University of Rijeka in December 2004, and began its activities on 1st November 2005 as a new member institution of the University of Rijeka. The history of the Academy can be traced back to 1963 when the Department of Fine Arts was founded at the Academy of Pedagogy. In 1978 the two-year study programme was extended into a four-year study programme. Since the foundation, the studies were carried out at the Faculty of Pedagogy, i.e. the Faculty of Philosophy in Rijeka, and at the newly founded Academy of Applied Arts. Upon completion of their study programme, the students acquire the academic title of Teacher of Fine Arts.

After the implementation of the Bologna process, the Academy has carried on with its educational work in Art Education and created another study programme entitled Applied Arts. In the academic year 2005/2006 undergraduate university studies of Art Education and Applied Arts, lasting four years, were offered to students. Starting with the academic year 2009/2010, another study is introduced - the graduate university study of Art Education and Applied Arts lasting one year.

The Academy is located in the new building of the University Campus Trsat since October 2006, where conditions have been achieved for the implementation of study programmes. The Academy of Applied Arts at the University of Rijeka is the first and only art academy in the Republic of Croatia of its kind, its study programme designed according to the consultative - research model of teaching based on Applied and Fine Arts. Elective subjects, flexibility of the study programme and interdisciplinary courses have been designed with the aim to answer individual interests of students and to satisfy the needs of domestic and international labour markets.

<i>Name of undergraduate studies:</i>	<i>Course / Module</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
1. ART EDUCATION		8	240	Bachelor of Art Education
2. APPLIED ARTS		8	240	Bachelor of Applied Arts
<i>Name of graduate studies:</i>	<i>Course / Module</i>	<i>Duration in number of semesters</i>	<i>ECTS credits</i>	<i>Acquired academic title</i>
1. ART EDUCATION		2	60	Master of Art Education
2. APPLIED ARTS		2	60	Master of Applied Arts

6.2 Faculty of Economics

www.efri.uniri.hr*

The Faculty of Economics was founded in mid-1961 as a part of the University of Zagreb. Once the University of Rijeka was founded in 1973, the Faculty became its member.

The Faculty began with teaching assignments by November 1st 1961, primarily teaching economic experts for purposes of the Primorsko-goranska and Istria region economy. Regarding the study program, there were three main tracks offered at the time: Maritime, Foreign Trade and the Tourism/hospitality. After several changes of the curriculum and after the joining of the Higher School of Economics in Opatija (hospitality track), the Faculty became a four departments institution in the academic year 1969/70. These were following departments: Department of Maritime and Traffic, Department of Industry, Department of Hospitality and Tourism and Department of Foreign Languages.

In 1971/72 the Faculty has established an inter-faculty study program of maritime traffic, in collaboration with the Faculty of Mechanical Engineering and the Higher Maritime School in Rijeka. In 1972/73 studies of law were incorporated into the Faculty's organisation. According to legal requirements, each department could be established as an independent school, so in the mid-seventies Faculty of Economics has actively contributed to the establishment of three new schools: the Faculty of Hospitality in Opatija (in 1973), the Faculty of Law in Rijeka (in 1975) and the Faculty of Maritime and Traffic in Rijeka (in 1977). At that time, the Faculty of Economics was merged with the Institute of Economics Rijeka.

In accordance with the legal directives, in the academic year 1973/74 all the three faculties jointly formed a Centre for Economic and Organisational Sciences in Rijeka, joined by the Higher School of Economics "Dr. Mijo Mirkovic" Pula in 1979. In 1984/85 the Centre was transformed into the Institute of Economics and Organisation in Rijeka. By the following years all the members of the Institute became independent institutions. So in 1991 the Faculty of Economics formed a research centre as an individual unit.

In 1996/97 the Faculty extended its educational activities by establishing the Teaching Centres for Studies in Umag and Gospić. In the following years the Teaching Centre in Umag moved to Buje. In 1999/00 the Faculty founded a centre in Bjelovar and in 2006/07 a teaching centre in Senj was opened. In 2008/09 teaching centres in Senj and Buje were closed, so the Faculty established a teaching centre in Karlovac.

Since 2005/06 the Faculty of Economics runs university study programs in line with the Bologna Declaration within two lines of studies: Economics and Business Economics. While developing new study programs, the Faculty opted for the 3+2+3 model, so that students after three years of studies at the undergraduate level obtain a bachelor degree, after two years of additional studies at the graduate level a master's degree and after three years of postgraduate doctoral studies, a doctoral degree.

In addition to higher education, the Faculty carries out scientific and professional work. As a part of this activity, international cooperation of the Faculty stands out as a particularly important segment which is growing and developing through various forms of cooperation with many international universities and institutions. Other important segment of the Faculty's scientific research work is its publishing activity through the Proceedings - Review of Economics and Business. It is also important to mention the

individual scientific work of its teaching staff, which regularly publishes their papers in national and international scientific and professional journals.

The Faculty of Economics is an institution which successfully developed about fifty scientific projects funded by the Croatian Ministry of Science, Education and Sports as well as about two hundred professional studies, feasibility studies, seminars, conferences and other scientific and research activities for purposes of the economy and the local government.

Furthermore, the Faculty is a full member of the prestigious EFMD-European Foundation for Management Development in Brussels, enjoying also the partnerships within the CESENET - Central and South-East European PhD Network, CEDIMES - Centre for Studies in International Development and Economic and Social Movements in Paris and the NISPACee - Network of Institutes and Schools of Public Administration in Central and Eastern Europe.

In 2010/11 the Faculty of Economics in Rijeka celebrated its 50th anniversary. Over a span of fifty years continuous teaching in the field of economics, there have been 3.475 students who completed professional studies, 7.771 students graduated at the pre-Bologna study programs, 1.374 students finished the bachelor study programs, 134 students graduated at the master level, 284 finished the postgraduate scientific study program, 121 the postgraduate specialist study program and 119 doctoral students gained the PhD title.

Every year in July, since 2005, Faculty of Economics is organising Jean Monnet International Summer School entitled "International Environment and European Integration", approved by the European Commission. The Summer School program consists of lectures, workshops and visits to Croatian companies and institutions, awarding 6 ECTS credits to students coming from different European countries, interested in getting knowledge on European integration processes. More information at http://www.efri.uniri.hr/english/prikaz.asp?txt_id=3113.

Furthermore, there is a possibility for international students to enrol into an English-taught study program entitled "International Business", whether they are coming as Erasmus/CEEPUS exchange students or as a free-mover student (list of courses held in English is available on http://www.efri.uniri.hr/english/prikaz.asp?txt_id=3503).

The Faculty of Tourism and Hospitality Management is Croatia's only university institution fully oriented towards educating managerial positions in tourism and hospitality and towards scientific human resource development in this field. Hence the mission of the Faculty is to take part, through teaching and research work, in the realization of the new development model for Croatian tourism which will appropriately present the natural attractions and cultural value of our country.

The Faculty performs numerous professional and scientific projects in Croatia and abroad and organizes scientific and professional conferences as well as round table discussions. The Faculty incorporates 7 institutes and 20 departments and carries out the following study programmes:

- Undergraduate university studies
- Graduate university studies
- Postgraduate specialist studies
- Doctoral studies
- Lifelong learning programmes

The quality of the content and the length of the study programmes are fully harmonized with the Bologna declaration and with other well-known study programmes of this kind in Europe, and they have been devised based on the requirements of the modern labour market. The European Credit Transfer System (ECTS) has been implemented at the Faculty, which enables easier understanding and comparisons between study programmes and which has been applied to all above-mentioned types of study programmes. The Faculty has also developed an internationally recognized honours system for measuring learning outcomes – First Class Honours Degree. The Faculty enables its students' distance learning as well as an electronic students' book, which puts it alongside other internationally renowned and well-known universities that apply modern evaluation and learning outcome assessment products.

The developed ECTS system for monitoring and evaluating learning outcomes and student competences can be recognized through:

- The improvement of the quality of education and qualification,
- Studying towards a "higher % of acquired knowledge, skills and competences", and with that entering a higher class in the honours system.
- The responsibility of all participants of the teaching process.

FOUR-YEAR UNIVERSITY UNDERGRADUATE STUDY

Throughout its history, the Faculty of Humanities and Social Sciences has undergone several changes. For twenty years it operated as the Vocational College of Education and Teacher Training College. In 1977, when the Faculty of Industrial Education and the Teacher Training Colleges of Rijeka, Pula and Gospić merged and became a part of the University of Rijeka, the Faculty of Education was established. In 1998, the Faculty of Education was registered under the name Faculty of Humanities and Social Sciences.

The mission of the Faculty of Humanities and Social Sciences is to provide excellence in education to students in pursuit of bachelors, masters and PhD degrees in the fields of social sciences and humanities.

In the academic year 2005/2006, the Faculty of Humanities and Social Sciences introduced comprehensive changes in line with the objectives defined by the Bologna Declaration, and adopted the three-cycles of higher education qualification and the ECTS.

The Faculty of Civil Engineering was founded as the College of Civil Engineering in 1969. In 1971 it started its programme in Civil Engineering as a part of the Faculty of Engineering in Rijeka and in 1976 as an independent Faculty of Civil Engineering. The Faculty provides high-quality education of professionals in the area of civil engineering and the related disciplines.

In 2005/06 the first generation of students was enrolled in the first year of the University Undergraduate Study as well as the Vocational Study, the Specialisation Vocational Graduate Study (Coastal Constructions and Infrastructure Systems) and Postgraduate Study programmes in Civil Engineering. In 2008/09 the first generation of students was enrolled in the University Graduate Study Programme in Civil Engineering. All study programmes are created in accordance with the Bologna principles and accredited by the Ministry of Science, Education and Sports.

During its 42 years of history 1.272 students graduated from the university programme and 1.430 students graduated from the vocational study programme, while 12 students were awarded the title of Master of Sciences in Civil Engineering. After the upgrade of study programmes according to Bologna declaration 240 Bachelors in Civil Engineering, 85 Masters in Civil Engineering, 91 Vocational Bachelors in Civil Engineering and 38 Specialist in Civil Engineering graduated while one student was awarded the title of Doctor of Technical Sciences.

 E-mail: dekanat@medri.hr
 www.medri.uniri.hr

The Faculty of Medicine in Rijeka was founded in 1955. It was the first faculty established outside Zagreb and the eldest member institution of the University of Rijeka.

The Faculty's activities began with teaching in the final years of medical study. After having gained complete independence from the University of Zagreb, Faculty of Medicine in 1957, teaching activities developed rapidly with an increasing number of academic staff holding teaching and research positions. In 1961, a postgraduate study was established at the Faculty, and, along with the study of Medicine, a number of other university and vocational study programs have been introduced since then.

Research activities began to develop soon after the Faculty was founded. The first doctoral dissertation was presented at the Faculty as early as 1959. Rapid development of fundamental medical sciences contributed significantly to research and professional development of clinical medical sciences.

By the end of 1970s, the Faculty introduced a vocational study of Nursing, followed by other studies that are still carried out. All study programs were renewed in accordance with the Bologna process in 2005, and the ECTS evaluation system was adopted. A university study of Organization, planning and management in health care was designed on the principles of the Bologna declaration, and finally a vocational study of Midwifery was established.

The Faculty of Medicine in Rijeka is the most influential research institution in the Republic of Croatia outside Zagreb and the most widely recognized research institution of the University of Rijeka.

Several internationally recognized research teams at the Faculty are recognized as leaders in their respective fields. A major contribution to research development and recognition was provided by the employment or re-employment of several recognized scientists from abroad who formed their groups and continue their successful work. The Faculty of Medicine has invested significantly in the education of research and academic staff, as well as in modern equipment and the establishment of new laboratories and centres.

The Faculty of Medicine has organized numerous scientific congresses and symposia, and, some of them at the highest international level. Many Croatian and international awards as well as the highest state science awards of the Republic of Croatia were granted to the researchers of the Faculty of Medicine.

6.7 Faculty of Maritime Studies

*Studentska 2
HR – 51 000 Rijeka
T: ++ 385 (0) 51 338-411
F: ++ 385 (0) 51 336-755
E-mail: dekanat@pfri.hr
www.pfri.hr*

Educational activities at the Faculty of Maritime Studies date back to 1866 when, in the building of the former hospital, the Austrian-Hungarian Naval Academy opened its doors. Since 1889 the Academy has acted as the Imperial and Royal Naval Academy (Marine Academy). During the First World War, the Academy ceased its work in Rijeka and was relocated to Vienna. It should be noted that the Croatian admiral Maximilian Njegovan (1858-1930), and one of the most famous officers of the Austrian-Hungarian Navy as well as the first commander of the State of Slovenes, Croats and Serbs, Croatian Admiral Janko pl. Vukovic-Podkapelski (1871-1918) have graduated from the Austrian-Hungarian Naval Academy.

Training at the Academy lasted for four years. Students usually enrolled after graduating from grammar school and they came from various parts of the Austrian-Hungarian Empire. The Academy was open until 1914 when educational work was abandoned and the Academy turned into a field hospital, i.e. until 1918 when after the fall of the Austrian-Hungarian Empire it was redesigned into the main city hospital.

Disruption in higher education in the field of maritime affairs lasted until 1949, when on fourth of April 1949 the Maritime College in Rijeka was established by Yugoslav government decree and later became a Faculty and continued its work to the present day.

With the arrival of the first foreign students to the Maritime College in 1960, a new chapter of the school's history started, and it became an international maritime educational institution in which 550 students from 24 countries acquired degrees in maritime studies.

The College was transformed into the Faculty of Maritime and Transportation Studies in 1978 when it became a member of the University of Rijeka. Those years were filled with work of modernizing curricula in order to meet the needs of shipping, sea ports and other maritime activities and requirements of the International Maritime Organization.

With the aim of promoting maritime profession in the Republic of Croatia and constant work at perfecting the scientific and educational processes, the Faculty of Maritime and Transportation Studies changed its name to the Faculty of Maritime Studies in 1992.

In May 1998 the Faculty of Maritime Studies was reorganized into two institutions: the Maritime College with Professional Studies and the University of Rijeka, Department of Maritime Studies for carrying out university undergraduate study programmes as well as postgraduate study programmes. In July 2001, the Department of Maritime Studies and the Maritime College, based on the consent of the authorized Ministry, were once again integrated into the University of Rijeka, Faculty of Maritime Studies.

In the academic year 2005/2006 Faculty of Maritime Studies began with the implementation of the Bologna process by accepting the system of education that is based on three cycles: undergraduate, graduate and postgraduate studies. The curricula contain the necessary knowledge in the field of engineering, technology, economics, law and management. Application of this knowledge allows recruitment and successful work in the profession, as well as in different maritime and transport agencies and companies whose activities are closely associated with shipping (shipping, sea ports, port

authorities, the ministries responsible for maritime industry, cargo ships/freighters, agencies, the customs, transport companies, etc.).

6.8 Faculty of Law

Hahlic 6
 HR – 51 000 Rijeka
 T.: ++385 (0) 51 359-600
 F.: ++385 (0) 51 675-113
 E-mail: dekanat@pravri.hr
 www.pravri.hr

The Faculty of Law of the University of Rijeka was established in 1976 as an independent educational institution. As of January 1981 curricular and other activities have been carried out in the new Faculty building, at its present address.

Over 30 years this Faculty has been conducting the program for education and training of graduate lawyers, and in 2005 the undergraduate program in Administrative law has been introduced as a vocational undergraduate program. In addition, graduate students can enrol in the specialist postgraduate programs "Criminal Investigation" and "Law of European Integrations" that are conducted at this Faculty. In the second half of 2011 new academic programs have been approved and will start with lectures in 2012. These are Postgraduate doctoral study program in social sciences, area of law and Specialist graduate vocational study program "Public Administration". Up to the end of 2010, 3.057 students graduated from the Rijeka Faculty of Law; 39 students received the title Master of Law after completing integral undergraduate and graduate study, 29 students obtained the Master of Science degree, 45 students obtained University Specialist in Criminal Investigation degree and 8 were awarded doctoral degrees.

Publishing accounts for one of the Faculty's main activities and numerous textbooks and monographs were thus published by the Faculty. Since 1980 the Faculty publishes regularly a scientific journal entitled: the Journal of Collected Papers of the Faculty of Law, University of Rijeka, as a scientific journal with international review.

UNIVERSITY STUDY PROGRAM				
<i>Undergraduate study program:</i>	<i>Course /orientation /module</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>University integral undergraduate and graduate study</i>	<i>Law</i>	<i>10</i>	<i>300</i>	<i>Master of Laws</i>
POSTGRADUATE STUDY PROGRAM				
<i>Postgraduate study – emphasis: science or specialist</i>	<i>Course /orientation /module</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Postgraduate specialist study "Criminal Investigation"</i>	<i>Criminalist</i>	<i>3</i>	<i>90</i>	<i>University Specialist in Criminal Investigation</i>
<i>Postgraduate specialist study "Law of European Integrations"</i>	<i>Law</i>	<i>2</i>	<i>60</i>	<i>University Specialist in European Integrations</i>
<i>Postgraduate doctoral study program in social sciences, area of law</i>	<i>Law</i>	<i>6</i>	<i>180</i>	<i>Doctor of Law (J.S.D.)</i>
<i>Postgraduate specialist study "Corporate Finance Law"</i>	<i>Law</i>	<i>2</i>	<i>60</i>	<i>University Specialist in Corporate Finance Law</i>
EXPERT STUDY PROGRAM				

<i>Undergraduate study program:</i>	<i>Course /orientation /module</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>Administrative study</i>	<i>Administrative law</i>	<i>6</i>	<i>180</i>	<i>Vocational undergraduate (baccalaureus/ baccalaurea) in public administration</i>
<i>Specialist graduate vocational study programme "Public Administration"</i>	<i>Administrative Law/Public Administration</i>	<i>2</i>	<i>60</i>	<i>Vocational specialist in public administration</i>

6.9 Faculty of Engineering

 E-mail: dekanat@riteh.hr
www.riteh.uniri.hr

The Faculty was founded in 1960. At the beginning, only the education of Mechanical Engineering was offered, but since 1969/70 the graduate engineers of Naval Architecture were also educated. The Faculty was renamed into Mechanical-Naval Architecture Faculty and in 1973 into Faculty of Engineering. The opening of the study of Civil Engineering in 1971/72 at the Faculty brought about the establishment of the independent Faculty of Civil Engineering in 1976.

In 1965 the Faculty organised courses for higher vocational qualification, while in 1987 the vocational study of Electrical Engineering began. In the academic year 1971/72 the postgraduate study in the field of Mechanical Engineering and Naval Architecture respectively was introduced.

In the past decade, the Faculty has intensively taken actions on developing new study programs which resulted in beginning of the graduate university study in Electrical Engineering in the academic year 1999/2000, the undergraduate university study in Computer Science in the academic year 2008/2009, and the graduate university study in Computer Science in the academic year 2011/2012.

Currently, the Faculty offers vocational and university studies in Naval Architecture, Electrical Engineering, Computer Science, and Mechanical Engineering, as well as the postgraduate doctoral studies in the field of Mechanical Engineering, Naval Architecture, and Fundamental Engineering Sciences.

<i>Title of the Undergraduate Study:</i>	<i>Course / Orientation / Module</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>

 T: ++385 (0) 51 265-800
 F: ++385 (0) 51 584-999
 E-mail: dekanat@ufri.hr
www.unri.ufri.hr

Education of teachers of lower grades of primary school began in Rijeka as early as 1960 as part of the Teacher Training College. At the first stage, from 1960 to 1963, the undergraduate early primary education study combined with another subject of instruction (Croatian, Mathematics, Geography and History) and was conducted at the institution, the purpose of which was to educate teachers for primary schools. The College had the status of a collegiate school and the study lasted for two years. The named study, also in duration of two years, continued to be conducted between 1978 and 1992, when the Teacher Training University College was established.

In 1992 the study was structured as a four years university study, upon whose completion students acquire university qualifications and the title of Graduate Early Primary School teacher. The university study was conducted at the Teacher Training University College, namely subsequently established Faculty of Humanities and Social Studies in Rijeka until 1998, when the Faculty of Teacher Education was established in Rijeka. The basic activity of the Faculty was structuring and conducting the vocational undergraduate four years study educating teachers for lower grades of primary schools as well as the vocational study for preschool teachers and assistants in kindergartens. The undergraduate teacher study was conducted at first as a study with a major subject (Physical Education, Music and Art) and starting with the academic year 2001/2002 as the so called 'pure' vocational study of early primary school education. This study has been, after adapting to the requirements of the Bologna process, conducted under the name of Vocational Early Primary Education Study.

Based on the resolution signed by the Minister of Science, Education and Sports on 22 September 2006, Faculty of Teacher Education in Rijeka was registered in the Register of Higher Education Institutions of the Ministry of Science, Education and Sports.

At the moment, the Faculty is conducting the Integrated Undergraduate and Graduate Early Primary Education university study as well as Undergraduate and Graduate Early Childhood and Preschool Education university study.

<i>UNIVERSITY STUDIES</i>				
<i>Name of integrated undergraduate and graduate study:</i>	<i>course / orientation/ module</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>1. University Integrated Early Primary Education Study</i>	<i>1. literary-linguistic 2. extracurricular activities</i>	<i>10</i>	<i>300</i>	<i>Master of Teaching (Primary Education)</i>
<i>2. University Undergraduate Early Childhood and Preschool Education</i>	<i>1. Professional preschool teacher 2. Integrated curriculum and extracurricular activities</i>	<i>6</i>	<i>180</i>	<i>Bachelor of Early and Preschool Education</i>

<p><i>3. University Graduate Early Childhood and Preschool Education (Part-time study)</i></p>	<p><i>1. &2. New paradigm in early and preschool education; 3. Institutional childhood, Modern parenthood, Modern preschool teacher, Methodology of early and preschool care and education; co-construction of curriculum, Enriched programmes, Kindergarten-the organization which learns)</i></p>	<p><i>4</i></p>	<p><i>120</i></p>	<p><i>Master of Early and Preschool Education</i></p>

 T: +385 51 406-582
 F: +385 51 406-524
 E-mail: ured@biotech.uniri.hr
 www.biotech.uniri.hr

The Department of Biotechnology was founded in July 2008 by the Senate of the University of Rijeka as a research and teaching unit. It comprises of two divisions: Molecular and System Biomedicine Division and Medicinal Chemistry Division. Main research activities at the Department are performed in both fundamental and applied research areas of molecular medicine, medicinal chemistry and high-throughput personalized medicine by use of state of the art technology and equipment. The Department holds a number of co-operations with international research companies involved in drug research and development or new medical diagnostic procedures.

Department of Biotechnology has been given national accreditations for teaching undergraduate, graduate and PhD. students. Main study programme subjects at the Department of Biotechnology comprise biotechnology, chemistry and drug development. Department of Biotechnology activities will be run in the new building at University Campus starting from the beginning of the academic year 2012/2013.

Undergraduate study		Semesters	ECTS	Academic title acquired on completion of programme
1. Biotechnology and Pharmaceutical Research		6	180	Baccalaureate of biotechnology and pharmaceutical research
Graduate studies:		Semesters	ECTS	Academic degree
1. Drug Research and Development		4	120	Master's degree in drug research and development (Msc.)
2. Medicinal Biotechnology		4	120	Master's degree in medicinal biotechnology
3. Medicinal Chemistry		4	120	Master's degree in medicinal chemistry (Msc.)
Postgraduate doctoral study		Semesters	ECTS	Academic degree
1. Medicinal chemistry	Modules 1 – 3 Obligatory medicinal chemistry modules Module 4. Advanced organic synthesis Module 5. Chosen topics on bioorganic and medicinal chemistry Module 6. Analyses and structural determination of new drugs structure Module 7. Molecular medicine	6	180	Philosophy doctor (PhD.)

6.12 University of Rijeka - Department of Physics

Radmile Matejcic 2
 T : + 385 (0) 51 345-042
 F : + 385 (0) 51 345-052
 E-mail : fizika@phy.uniri.hr
www.phy.uniri.hr/

The Department of Physics of the University of Rijeka was established at the end of 2007 as a successor of high-schools involved in the education of high-school teachers since 1960's.

The Vocational College of Education was established in 1953 with the aim of providing education for teachers of mathematics and physics in vocational-technical and economic schools. The Department of mathematics and applied physics was established in academic year 1960/61. In 1962 the Vocational College of Education changed its name in School of Industrial Education which was transformed in 1972 into the Faculty of Industrial Education with university courses in mathematics and physics. The Faculty of Education in Rijeka was established in 1977, including the Department of mathematics and physics as a part of it. In 1998 the Faculty was registered under the name Faculty of Philosophy (Faculty of Arts and Sciences) with the Physics Department as one of the founding members.

More ambitious development of the University of Rijeka in the recent years has led to the establishment of an independent Department of Physics as a modern university department with the mission to organize physics teaching at all faculties and departments of the University and to perform internationally recognized scientific research. In this process, several respected scientists from foreign and domestic institutions have joined the Department. In this way the Department has not only increased in size, but also in the diversity of the research areas covered, from atomic and molecular physics, nuclear physics, solid state physics, particle physics, astrophysics, educational physics to the most fundamental research in unification of forces and superstring theory.

The project of the University Campus on Trsat with the new building for the University departments opening in 2011 is of prime importance for the rapid development of physics in Rijeka. The modern infrastructure is expected to improve substantially the conditions for scientific research, teaching and students' standard. Due to the given possibilities and also to the integration of Department of physics with other university members, the Department is in position to offer some new graduate programs, including several new interdisciplinary studies.

Name of the undergraduate study:	Optional subject	Semesters	ECTS	Academic title acquired on completion of programme
Physics	Mathematics (there are still two possible choices: teacher training or non-teaching module)	6	180	Bachelor of physics
	Computer science (there are still two possible choices: teacher training or non-teaching module)	6	180	
	Philosophy (there are still two possible choices: teacher training or non-teaching module)	6	180	

	<i>Environmental Science</i>	<i>6</i>	<i>180</i>	
	<i>Physics</i>	<i>6</i>	<i>180</i>	
<i>Name of the graduate study:</i>		<i>Semesters</i>	<i>ECTS</i>	<i>Title</i>
<i>1. Physics and mathematics</i>	<i>Teacher-training</i>	<i>4</i>	<i>120</i>	<i>Master of education for physics and mathematics</i>
<i>2. Physics and computer science</i>	<i>Teacher-training</i>	<i>4</i>	<i>120</i>	<i>Master of education for physics and computer science</i>
<i>3. Physics and philosophy *</i>	<i>Teacher-training</i>	<i>4</i>	<i>120</i>	<i>Master of education for physics and philosophy</i>
<i>4. Physics **</i>	<i>Theoretical</i>	<i>4</i>	<i>120</i>	<i>Master of physics</i>
	<i>Experimental</i>	<i>4</i>	<i>120</i>	<i>Master of physics</i>
<i>5. Engineering and physics of materials</i>		<i>4</i>	<i>120</i>	<i>Master of engineering and physics of materials</i>
<i>6. Physics and Environmental science **</i>		<i>4</i>	<i>120</i>	<i>Master of physics and environmental science</i>

(*) Study programme in course of accreditation.

(**) Study programme in preparation for accreditation.

6.13 University of Rijeka - Department of Informatics

*Radmile Matejcic 2
HR-51 000 Rijeka
T: ++385 (0) 51 345-046
F: ++385 (0) 51 344-100
E-mail: ured@inf.uniri.hr
www.inf.uniri.hr*

Department of Informatics at the University of Rijeka resulted from a long-term development of educational and scientific activities in the field of informatics which date back to the year 1986 when the Institute of Informatics was founded (later renamed as the Department of Informatics) at the Faculty of Arts and Sciences (later renamed as the Faculty of Humanities and Social Sciences) in Rijeka.

The Department of Informatics was founded in April 2008 with the mission to create conditions necessary for scientific research in the area of social sciences in the field of information and communication sciences and in the area of technical sciences in the field of computing. Members of the Department work on educational and scientific activities in the domain of information system, intelligent systems, networking and communication systems including the development of multimedia learning support systems (e-learning systems). The aim of the Department is to significantly intensify cooperation with the economy in order to better prepare our students for future work challenges.

The Department of Informatics has three institutes, with chairs and laboratories, which are structured with aim to support scientific and educational activities: the Institute for Communication Systems, the Institute for Computer Science and the Institute for Business Informatics.

The work at the Institute for Computer Science concerns theoretical background and the implementation in the field of intelligent systems and operating systems. The Intelligent Computing Systems Group conducts research in the fields of Speech Technology and Intelligent Computing Systems. Within the study curriculum core courses conducted by the institute include: Programming, Algorithms and Data Structures, Operating Systems, Digital Systems, Intelligent systems, Introduction to Digital Speech and Image Processing, Man-machine communication, Knowledge Discovery and Data Mining, Knowledge Management, Decision Support Systems, Natural Language Processing, Information Technology and Project Management.

The Institute for Communication Systems deals with the teaching and research activities related to computer networks, dynamic web applications, and the use of information and communication technologies in education or e-learning (e.g. Learning Management Systems (LMSs), the use of multimedia and hypermedia in learning, recommender systems, Web 2.0 tools, etc.). The Institute also deals with the impact of information and communication technologies on the economic activities, public discourse and social practice. The core courses related to these topics involve Computer networks (1 and 2), Dynamic web applications (1 and 2), Network systems management, Multimedia and hypermedia systems, Basics of e-learning, Information technology and society, and similar courses. The institute has two chairs, the Chair for Network Systems and the Chair for Multimedia Systems and e Learning.

The Institute for Business Informatics is concerned with research and education in the field of information system development. From the methodology standpoint, the main goal is to research and make use of the methods for IS analysis and development. The IS modelling process as well as the use of each individual method is enhanced in order to achieve the main goals: a better system description, shorter modelling time and better connection with the software development process. An advanced version of the MIRIS methodology is developed as well as methods for estimating IS complexity. IS development phases are defined in detail, together with modelling process and methods that are preferred to be used during each activity.

<i>Undergraduate study:</i>	<i>Study / orientation / track</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>single major program of Informatics</i>		6	180	<i>Bachelor of Informatics</i>
<i>double major program of Informatics and another major (in cooperation with the Faculty of Humanities and Social Sciences)</i>		6	180	<i>Bachelor of Informatics</i>
<i>Graduate study:</i>	<i>Study / orientation / track</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
<i>single major program of Informatics</i>	<i>teacher training</i>	4	120	<i>Master of Informatics</i>

6.14 University of Rijeka - Department of Mathematics

Radmile Matejcic 2
HR-51 000 Rijeka
T: ++385 (0) 51 345-052
F: ++385 (0) 51 345-052
E-mail: vkovac@math.uniri.hr
www.math.uniri.hr

As the successor to the various institutions that educate teachers of mathematics since 1960's, the Department of Mathematics was established in April 2008, based on the Decision of establishment of the Department of Mathematics, University of Rijeka, which was passed by University of Rijeka's Senate on 17 December 2007. The Departments of Mathematics along with the former employees of the Faculty of Philosophy has a tendency toward assembling others mathematicians from University of Rijeka.

The first cycle study programme in mathematics and the second cycle study programme in mathematics and computer sciences are studies of the University of Rijeka which are organised and conducted by the Department of Mathematics.

The Department is divided into divisions: Division of Algebra and Number Theory, Division of Discrete Mathematics and Division of Mathematical Analysis. From 2011 the Department is organising and conducting first non-educational graduate study of mathematics in the University of Rijeka: Discrete Mathematics and its Applications. That study differs by its content and learning outcomes from existing courses of mathematics in Republic of Croatia.

We emphasize the organization of NATO Advanced Study Institute on Information Security and Related Combinatorics in 2010 and 5th Croatian Mathematical Congress which will take place in June 2012.

<i>Nomenclature of first cycle study programme: (Bachelor level)</i>	<i>Course</i>	<i>Semesters</i>	<i>ECTS</i>	<i>Academic title acquired on completion of programme</i>
