

STUDY PROGRAM: University Double Major Undergraduate study in Philosophy

CORE LEARNING OUTCOMES OF STUDY	
<i>Learning outcomes of study program</i>	<i>Individual study program outcomes</i>
History of Philosophy	Cite and explain central historical periods, directions, exponents and approaches in philosophy
	Explain the development of philosophy and the central discourses within the discipline
	Identify and separate central concepts and discussions within particular historical periods, directions and approaches
	Contextualize the position of philosophy in relation to similar disciplines and fields of study
Philosophical disciplines- fundamental concepts and theoretical directions	Outline, explain and analyze primary philosophical concepts, problems and their proposed solutions within specific disciplines
	Comprehend, analyze and compare dominant philosophical theories within specific disciplines and independently assess which of them most successfully answers problems posed
	Give a historically contextualized overview of philosophical stances within specific disciplines
	Describe and explain primary stances of central philosophers in specific disciplines
Critical analytical skills and methodology	Apply tools of informal and formal logic in identifying, analyzing and evaluating arguments and their structure
	Evaluate the validity of arguments and assess their plausibility and strength
	Analyze and evaluate the logical structure of texts, prove logical correlations and recognize typical mistakes in argumentation
	Critically apply and demonstrate primary methods and strategies of critical thinking
	Acquire basic independent reading and interpretative skills when analyzing philosophical texts
	Comprehend, analyze and compare fundamental methodological approaches within specific philosophical domains

	Independently produce academic work using relevant literature and applying academic conventions for citing, paraphrasing, referencing and writing a bibliography
	Apply primary theoretical stances within different domains of philosophy on real life problems and situations
